

SHEREX FASTENING SOLUTIONS, LLC names Kah Xiung (Chris) Low as the new Applications Engineer

Tonawanda, NY – January 27, 2010: Sherex Fastening Solutions, an industry leader in the manufacturing and distribution of blind rivet nuts, announced today that Chris Low will be one of our new Application Engineers.

Sherex is excited to welcome Chris Low to our team. "I am very happy Chris has decided to continue working with us. He did a wonderful job while interning last summer and fall, and I'm sure he will continue to be a valuable member of the Sherex Team," said John Knechtges, Engineering and Quality Manager of Sherex Fastening Solutions. Chris will play a major role as Sherex continues to grow its business while maintaining its high quality standards.

Chris started at Sherex in June 2009 as an engineering intern. During his time at Sherex Chris has shown a great ability to learn on the go while creating engineering drawings for our website and working on new applications and product development. Chris holds a BS in Mechanical Engineering from the University at Buffalo.

Sherex Fastening Solutions is a leader in the manufacturing and distribution of blind rivet nuts, brass inserts, and other specialty fastening products. Sherex rivet nuts are ideal for providing load-bearing threads in thin materials and blind applications. All blind rivet nuts and brass inserts are manufactured to Sherex's strict quality control programs and Sherex provides unsurpassed customer service and support before and after the sale.
